- CALL WITH CREDIT CARD OR VISA DEBIT CARD
- DROP PAYMENT IN MAIL SLOT AT OFFICE
- MAIL TO PO BOX 40 INWOOD, ON N0N 1K0

SWIFT Pro♥gress Report

So far 2022 has been great, the Pickard crew is currently directional drilling along Oil Heritage Rd. in Wyoming, and they are even still installing vaults along LaSalle Line. Thankfully the weather has been cooperating for these jobs, however, plows to the individual homes and business have stopped for the season, but spring is right around the corner, right?

Petrolia and Rokeby Line is having the available prep work started so as soon as Mother Nature changes her tune, the plows, they will be a comin'.

We are so excited for the next phase to begin so more of our amazing members will get to enjoy Fibre To The Home!

SWIFT put out a great press release on January 19 explaining the project, giving an update on progress as well as more insight into how the project is being funded.
