

Brooke Telecom

CO-OPERATIVE LTD.

CONGRATULATIONS to JANIECE KAPP

who was the winner of the Night on Brooke Telecom Newsletter Giveaway in January. This was our first ever Newsletter ONLY giveaway. See it can pay off to read your bill 😊

Brooke Telecom

CO-OPERATIVE LTD.

will be sponsoring a FREE PUBLIC SKATE on Sunday, March 20 from 12:45 pm to 1:45pm at WATFORD ARENA

Lets all add a little GREEN to our lives in March

What a great time to start using SmartHub. You can access the app on your device by downloading it in the App Store or through Google Play. or through our website.

This little GREEN app can help you with all your account management needs;

You can retrieve current and past bill statements for the history of your account. ... great for tax time

You can view all payment transactions. ... see you did post that payment on August 8th like you thought

You can pay on your account using credit card or VISA debit instantly ...if you pay before 4pm

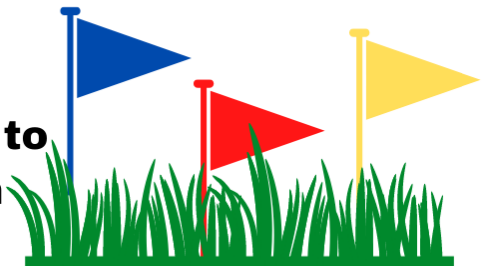

You can set-up Pre-Authorized payments from your Credit Card or VISA Debit ...no more late fee

You can report any service issues ... IF, you ever have any

!! Friendly Reminder !!

As the snow melts and the GREEN grass starts to appear, please be mindful of the construction flags that will be reappearing.

Don't let internet speeds ruin your March Break, check with us today and see if a speed increase can help keep you connected.

UPDATE

Despite the weather we are still working hard to deliver Fibre to Homes.

Fibre to the Home Information packages for Rokeby and Petrolia Line were mailed out recently and we are hoping these customer can send this information back to us by March 15!

We encourage anyone else that has received a construction permission form and has not returned it to do so ASAP, we would hate to miss you!

We are hoping that Oil Spring's Harvey is correct and we will have an early spring, but in the meantime our contractor is able to use their mechanical groudhog to bury pipe in some areas through the winter.
