**Brooke Telecom every year awards 4 lucky community members a \$1000 post secondary scholarship. We received some incredible entries, and as hard as it was, we are proud to introduce you to our 2021-2022 Brooke Telecom Scholarship recipients .**

Hi! My name is Julia Redick. I attended Strathroy District Collegiate Institute in Strathroy! I am now attending Western University in London. I am double majoring in family studies and geography to become a high school teacher. My hobbies are running my own small business, Julia Custom Creations, where I make tons of different custom pieces! Things such as Starbucks cups, Spotify frames, sweaters, t-shirts and more, and I love to play softball!

My name is Page Manning, I previously attended North Lambton Secondary School. Currently, I am obtaining my Bachelor of Commerce, majoring in Hospitality and Tourism Management, at the University of Guelph. During the pandemic I took up a new hobby of learning a new language and took a college Spanish course. Since moving to Guelph, I am enjoying attending yoga, the gym, and hiking with friends. I am also enjoying participating with the indigenous student center, doing various activities and further learning about my culture.

My name is Peyton Moffatt and I graduated from LCCVI this past June. I am currently attending the University of Waterloo for Chemical Engineering. In January 2022, I will be starting my first Co-op at Ceridian as a Project Manager and Systems Analyst. This year, I am trying out for the university ringette team at Waterloo. I am also hoping to continue refereeing throughout the winter as well.

Hi, my name is Anna McGugan and I recently graduated from LCCVI high school in Petrolia on the principal's roll of distinction. I am currently in my first semester at Western University in London, Ontario where I am studying Health Science with an interest in possibly pursuing a career in Occupational Therapy. Growing up, I had a very good friend that lives with down syndrome; that being said, helping individuals living with disabilities has always been important to me and has piqued my interest in the field of rehabilitation therapy with a focus on helping to improve the quality of life for individuals living with special needs. Throughout high school I was involved in sports including soccer, volleyball and badminton as well as various clubs including Lunch Buddies and Athletic Association. Outside of school I've played soccer in Arko-na, Ringette in Forest and have worked through first aid courses, bronze medallion, and bronze cross in hopes of earning all of the qualifications needed to become a life-guard. I have also spent multiple summers helping to lead groups of kids at local summer camps. I would like to thank the Brooke Telecom Selection Committee, and everyone involved in the decision process, it was an honour to receive this scholarship.
