## LET'S CELEBRATE CO-OPERATIVE WEEK OCTOBER 13-19

A co-operative is an organization owned by its members and democratically operated with a board of directors that are accountable to the overall membership of the organization.

Co-ops differ from other business models because revenue is determined by a Board of Directors as well as its members and profits are either re-invested in the community through services or distributed to the members in the form of dividends.

Brooke Telecom Co-operative Ltd. exists to deliver quality communication services to its valued members and the communities it serves and over the past 5 years we have invested almost \$18 million in fibre infrastructure for our community in association with the Federal, Provincial and Local governments!

*Come to our offices to receive a complimentary treat!*

*\*while supplies last\**
